WHO ARE WE?

Tucker Dust and Diesel was established in 2019, providing plant and vehicle maintenance services to the Goldfields Region of Western Australia. Proudly 100% Aboriginal Owned and Operated, we focus our efforts on providing reliable and high-quality servicing and repairs to our clients.

WHAT WE DO

Tucker are specialists in providing a comprehensive mobile maintenance service for vehicles and various mining support equipment.

- » We **EXAMINE** the extent of malfunction or damage.
- » We **COMMUNICATE** clearly with customers regarding repair options.
- » We **REPAIR** by following stringent checklists and processes.
- » We **SUPPORT** by providing a sound servicing schedule if requested.

WHY WE DO IT

Managing Director of Tucker Dust and Diesel, Travis Tucker, is a strong believer in helping the local community and its people. He has a long-term vision of creating professional employment opportunities for the next generation through apprenticeships and traineeships. Instilling quality workmanship into their training regime is important to Travis, as providing a quality service to clients is core to Travis's working ethos.

HOW WE DO IT

Recognising the high-risk environment from which we operate, Tucker Dust and Diesel ensures that all team members are trained and competent people who never jeopardise safety. We provide our team members with the right tools and resources required in order to complete tasks effectively, efficiently, and safely. We understand that a consistent approach toward services and repairs by our team is important to both ourselves and our clients. As such, we have developed a comprehensive Integrated Management System, which is driven directly by our safety, resource, and financial policies.

EQUIPMENT/PLANT

Tucker Dust and Diesel offer a large array of equipment for lease, including:

- » Generators (Small 10KVA through to large 1250KVA options available)
- » Lighting Towers (LED and Metal-Halide options available)
- » Pumps (Trailer and Skid options available)
- » Headworks (Headworks, Flow Meters, and Standpipes available)
- » 22KL Staging Tanks
- » 440CFM Compressors
- » Trailers (Car, Plant, 1000L Pod, and Box options available)
- » Starter Panels (22KW through to 220KW options available)
- » Transformers (100KVA through to 500KVA options available)
- » Distribution Boards (15A through to 1000A options available)
- » Load Banks (12KVA through to 600KVA options available)
- » Cables (Single and multi options available of various length requirements)
- » Trucks (6tn, 12tn, and Prime Mover options available)

Tucker Dust and Diesel currently provides services for Tellus, Paddington, Kai Rho, and Brenntech, and we are focussed on continuing to build our client base through the provision of quality service and equipment.

We currently have partnerships in place with Statewest Group, Genwest, and Ryans Mechanical Contracting in the Goldfields, which provides us with the ability to expand our capabilities and capacity as our clients require.

WHAT OUR CLIENTS SAY

“Delays in delivery and subpar equipment have been a constant source of frustration. It was only when we outsourced our equipment, operators and maintenance contracts to Tucker Dust & Diesel that quality and follow through stopped becoming issues.”

Clark Gregory Anders
Fimiston

“Travis (Tucker Dust & Diesel’s Managing Director) and the team did not disappoint with their professionalism and transparency. They were honest with what they can provide and do for us; and when they promise something, they absolutely deliver.”

Shannon McKenzie
South Boulder

**Expertise,
Convenience,
Reliability.**

TRAVIS TUCKER

Travis Tucker is a proud Aboriginal man of Tjalkadjara, Nyalpa Pirniku, Darlot, Esperance Nyungar and WA/SA Mirning People heritage. He is a qualified heavy-diesel mechanic, with licences across vehicle works, electrical, and automotive air-conditioning areas.

Travis previously worked with several reputable companies, including FMG, BHP, BIS, and Department of Transport, enabling him to build over ten years’ experience and gain an excellent understanding of client expectations.
